SELECTED PROJECTS

Ledgr

Accounting Platform | Frontend Development

Tech: Figma • HTML • CSS • JavaScript

Designed and developed the complete frontend of an accounting platform from initial Figma wireframes through implementation. Built responsive interfaces, reusable components, intuitive workflows, and collaborated with a multidisciplinary development team.

Portfolio Website

Professional Portfolio | Full Stack Web Development

Tech: HTML • CSS • JavaScript

Designed and developed a responsive portfolio website showcasing software engineering, frontend development, and UI/UX projects with accessibility and clean architecture.

Daisy Delights

Responsive Business Website | Frontend Development

Tech: HTML • CSS • JavaScript

Developed a responsive bakery website featuring online reservations, interactive menus, and modern user interfaces by customizing and extending a professional template.
